PROJECTS

SolarVista - Interactive Web Representation of the Solar System

Engineered an interactive web representation of the solar system, leveraging HTML and CSS to create a visually engaging and dynamic experience.

Abode - Interactive E-commerce Mobile App for Household

Designed and developed an interactive e-commerce mobile application named 'Abode' for household products using Figma. Implemented user-friendly features and engaging interfaces to enhance the overall user experience.

MiDine: Figma Design for Restaurant Management Platform

MiDine is a Figma-designed restaurant management platform. It simplifies tasks like order processing, inventory management, and reservation tracking for restaurant owners and staff. The design focuses on user-friendly features, ensuring an efficient and visually appealing experience.
